Hello, everyone. Welcome to August. For those in the northern hemisphere, I hope you are all enjoying the summer period. Hot and humid are the key words for the Montreal region over the past week or two.

The Newsletter is a little late this month. Input from subscribers is way down again this month. When that happens it takes me a lot longer to search out enough material to fill up the Newsletter. I encourage you to send along any links that you feel might be of interest to our readers.

There are a lot of hamfests coming up, particularly in September. Radio HF will be at three events during the month of September. The Hamfest/Fleamarket calendar below gives you all the details. I look forward to meeting some of you at these upcoming events.

As many of you may know, the Canadian and the U.S. dollars are almost equal, something we haven't seen in North America for decades. As a result, I have some good news to pass along. I have just completed an update of the book catalog appearing on the Radio HF webpage to reflect the new, lower prices for all those publications coming from the United States. You'll find the updated list under "Publications" on the Radio HF webpage at http://www.radiohf.ca

In this month's Newsletter, the Monthly Special Zone for August features websites about the anniversary of the atomic bombs dropped

on Japan in 1945.

THE CONTRIBUTORS ZONE

An extremely low turnout again this month with just three contributors, including myself! It becomes increasingly more difficult each month to come up with enough new material to fill the Newsletter. Please consider submitting a website, or two, that you think might be of interest to our subscribers. It will certainly make my life a lot easier.

THE MONTHLY SPECIAL ZONE

HIROSHIMA ARCHIVE

http://www.lclark.edu/~history/HIROSHIMA/

Inspired by the photographic work "Hiroshima" by Japanese artist Hiromi Tsuchida, The Hiroshima Archive was originally set up to join the on-line effort made by many people all over the world to commemorate the 50th anniversary of the atomic bombing. The archive is intended to serve as a research and educational guide to those who want to gain and expand their knowledge of the atomic bombing.

ATOMIC BOMB: DECISION

http://www.dannen.com/decision/

On August 6 and 9, 1945, the cities of Hiroshima and Nagasaki were destroyed by the first atomic bombs used in warfare. Documents on the decision to use the atomic bomb are reproduced here in full-text form. In most cases, the originals are in the U.S. National Archives. Other aspects of the decision are shown from accounts by the

participants.

REAL RADIOS HAVE MOTORS

http://www.hypertools.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

The lucky grunt, you know, the soldier who carries the squad radio. That's him over there, weighted down by the gross avoirdupois of a supposedly 'portable' radio, tangled up in hundreds of feet of counterpoise wire, his clothing in tatters from spilled BB-451 electrolyte, berated by the CO because of poor reception, cussed by the repair depot REMFs because of all the bullet holes in the radio. He's the guy right under that 15 foot tall 'target designator' called a whip antenna. Dedicated to that lucky grunt, here's a brief selection of some interesting, perhaps unusual, possibly noteworthy, or maybe just plain goofy military manpack radios.

THE AM WINDOW

http://www.amwindow.org/

VIA Sheldon Harvey, Greenfield Park, Quebec

If you are interested in having fun with AM amateur radio, feel free to browse around this site. You'll find all kinds of info on favorite AM frequencies, nets, technical information, photos, a bulletin board, and even AM audio. Enjoy!
